HAWES TO MANAGE LOCAL CAMPAIGN

Request of City Committee and President Would Allay Alarm in Nominees Prevails on State Committee.

Confident That the Nominee for Council Means Many More Votes on November 8.

The selection of August A. Busch by the Democratic City Committee to be the party's nominee for Councilman, to succeed the late Isaac W. Morton, has made the Democrats of South St. Louis feel certain that the ticket in that section of the city will receive more than the majorities which have been given to it during the

will receive more than the majorities which have been given to it during the last four years.

Mr. Busch was nominated without any solicitation and without opposition. When his name was proposed his strength which it was known he would have with the voters. Was such that no other name was suggested. He has been prominent in public enterprises, is a director of the meeted with every branch of sport. It is generally conceded that his nomination keeps up the standard of the Democratic ticket.

Members of the City Committee feel confident that the city ticket will be elected if the better element does its duty by nominees who were nominated at the West End Coliseum. The ticket was put up to appeal especially to them, and there is every indication that if will do so.

Harry B. Hawes, acting under the direction of the State Committee, will remain in St. Louis to manage the campalgn. Yesterday afternoon a conference was held between the leaders of the Democratic City Committee and the State Committeemen, when the following request was presented, signed by the City Committee and the local nominees:

To the Democratic State Committee: We, the undersigned, ward and city central committeemen, having seen by this morning's papers that Harry B. Hawes is billed by the State Committee to speak at some ten or fifteen points in the State, hereby urgently request that Mr. Hawes devote his time from now on exclusively to the St. Louis campaign.

We are confident that the Democratic party will win, but believe that the Democratic party in this city.

TO STAY IN ST. LOUIS. The State Committee was averse to reeasing Mr. Hawes from his engagements out in the State, but the arguments of the local leaders were such that it was finally decided to cancel all of Mr. Hawes's engagements outside of St. Louis, with the exception of Warrensburg for next Saturday afternoon. Telegrams were sent to the managers of the other meetings announcing the decision. All of those in the conference regretted the cancellation of the dates, and if Mr. Hawes had not premised Rube Oglesby, nominee for Railroad and Warehouse Commissioner, months ago that he would speak there, he would have remained in the city for Saturday. The City Committee will continue with its old organization. At the meeting Tuesday night it was decided to keep John R. McCarthy as chairman, and Isaac Conrain as secretary. Both have been considered in the minority, but their work has been so effective that the other members of the committee thought that the committee feeling would be strengthened by continuing them in the service. Against his own protest, Louis Kung was proposed for chairman by the friends of McCarthy, but only three or four of the letter's friends voted for him.

lished the letter under headlines indicated "Judge Spencer Dodges Issue," Republican Orators Refuse to Meet Their Opponents in Joint Discussion."

I had supposed that your suggestion and correspondence in regard to a joint discussion was for the friendly purpose of arranging, if convenient to both you and myself, a time and place for meeting, and was not for the mere purpose of premature publication. Though I know your entire time is given to politics, still it occurs to me that the recollection in your own experience, when other duties besides politics demanded your attention, ought at least to have prevented you from the publication of a personal correspondence until at least a reasonable opportunity for answer had been given.

I shall be glad to meet you in a joint discussion of the issues of this campaign as you suggest. I only wish my own professional engagements and other duties might enable me to make the control of the state. It will meet you in the other than the home of both gubernatorial candidate, the one or three meetings, as you suggest, and you may select the place or places and any dates I will also meet you in the central part of the State, say at Sedalia, at any time and place you may suggest, and my only regret is that the shortness of the time and professional duties which I cannot lay aside prevent any further extending this joint discussion. One-half the expense of any hall or halls that you may select and that shall be satisfactory to me I will gladly bear.

If I remember rightly, Mr. Hawes, before the Democratic gubernatorial convention, sought in vain to secure a joint discussion with Mr. Folk upon the issues between them. There seems, therefore, some precedent for the longer party to seek such comfort as may be determined that he had not received a reply from great and that he had not received a reply from

Panama Over Creation of Canal Strip Government.

BUSCH WILL HELP TICKET. FEARS AMERICAN AGGRESSION.

South St. Louis Democrats Feel United States Officials Will As sure Amador That No Sovereignty Will Be Assumed Except Such As Effects Canal.

> Washington, Oct. 19.-Secretary of War Taft, with a party which he is to select will make a visit to the Republic of Panama to familiarize himself with conditions touching the construction of the canal and to allay the suspicion, now growing in Panama, that the United States intended to assume sovereignty over the canal strip to the detriment of Panama.

While definite arrangements have not yet been made for Secretary Taft's trip, it is his purpose to go to Panama on the army transport Sumner from New York

about November 14. Secretary Taft is authorized by the President to take with him whomspever he President to take with him whomsoever he pleases in connection with the work, and, while the personnel of the party has not yet been arranged, it is certain to be a large one. Representing Panama will be Minister Obaldia.

Admiral John Walker will go as representative of the Canal Commission, Judge Charles Magoon, the law officer of the commission and of the Bureau of Insular Affairs, who has been of much assistance in framing orders and regulations for the canal strip, also will be of the party. The members of the Senate and House committees dealing with isthmian affairs will be invited.

PRESIDENT'S LETTER

PRESIDENT'S LETTER.

The following is part of the letter sent by the President to Secretary Taft: by the President to Secretary Taft:

There is ground for believing that in the execution of the rights conferred by the treaty the people of Panama have been unduly alarmed at the effect of the establishment of a government in the canal strip by the commission. Apparently they fear lest the effect be to create out of part of their territory a competing and independent community, which shall injuriously affect their business, reduce their revenues and diminish their prestige as a nation.

tion.

The United States is about to confer on the People of the State of Panama a very great benefit by the expenditure of millions of dollars in the construction of the canal. But this fact must not billed us to the importance of so expenditure the united by the order of the conference of the conf erdsing the authority given us under the Heaty with Panama as to avoid creating any sun picton, however unfounded, of our intention as to the future. GOVERNMENTAL FUNCTIONS.

We have not the slightest intention of establishing an independent colony in the middle of the State of Panama, or of exercising any greater governmental functions than are necessary to enable use conveniently and safely to construct, maintain and operate the canal, under the rights given us by the treaty. Least of all do we desire to interfere with the business and prosperity of the people of Panama. However far a just construction of the treaty might event in the second of the people of Panama. However far a just construction of the treaty might execute it, in asserting the proper care for the construction that the rights which we exercise shall be exercised with all proper care for the honor and interests of the people of Panama.

The exercise of such powers as are given us by the treaty wherein the geographical boundaries of the Republic of Panama is not shown, create distrust of the American Government. This would seriously interfere with the success of our great project in that country. It is of the utmost importance that those who are ultimately responsible for the policy pursued about have at first hand as trustworthy information as can be obtained in respect to the conditions existing in Panama and the attitude and real interest of the people of State.

authorities of the Republic of Penama. You are authorized, in doing this, to take with you such persons as you desire, familiar with conditions on the istimus, who may aid you with their counsel. The earlier you are able to make this visit, the better.

The Secretary of State will instruct the United States Minister at Panama to render you every assistance in his power and the Governor of the canal strip, General Davia, will, of course, do the same thing. You will advise the President of the Republic and assure him that it is not the jource of the United States to take advantage of the rights conferred upon it by the treaty to interfere with the weighter and properly of the State of Panama, or of the Cities of Colon and Panama.

Before closing her address she took the question of the model saloon, which has been established in New York and ap-proved by Bishop Potter, stating that if t was necessary for men to have some place where they could gather together socially, it would be better to arrange one where they could also bring their wives and children. In speaking of the theory that has been advanced that the laboring man's wages are not large enough to fit him up a home which would be very cheerful, she says it would b better to start some great commercial rather than have the mothers stay at home with their children while the fa-
